Early repayment charges (1% for each year of initial rate remaining)

You can pay back the capital part of your loan by making "overpayments". These are amounts in excess of your monthly mortgage payment. An early repayment charge could apply if you make overpayments whilst you are paying the initial rate on your mortgage. In this case, an early repayment charge is payable if the total overpayments in any one year exceed 10% of the amount which you borrowed. The early repayment charge is a percentage of the repaid amount in excess of the permitted "Allowed Limit" detailed above.

Product	Year(s) after anniversary of drawdown				
	0 - 1	1 - 2	2 - 3	3 - 4	4 - 5
2-yr tracker rate	2%	1%			
5-yr tracker rate	3%	2%	1%		
3-yr fixed rate	3%	2%	1%		
5-yr fixed rate	5%	4%	3%	2%	1%

For example, if you take out a five year fixed rate mortgage on 1 February 2018, then until 31 January 2019 you have between 4 and 5 years left on the initial rate. An early repayment charge in this period is calculated as 5% of the amount of your overpayment.
